

MULTI PURPOSE SCREW SQUARE DRIVE

• Square Drive

Square drive delivers plenty of torque
Without stripping out the head

• Countersunk Head

• Ribs

For better countersinking

• Needle Point

For quicker & easier entry

Diameter Gauge	Length	Head	Drive	Material	Finish
4.2mm 8G	20mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.2mm 8G	25mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.2mm 8G	28mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.2mm 8G	32mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.2mm 8G	40mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.2mm 8G	45mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.2mm 8G	50mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.2mm 8G	65mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.8mm 10G	40mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.8mm 10G	50mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.8mm 10G	65mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.8mm 10G	75mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.8mm 10G	90mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
4.8mm 10G	100mm	Countersunk	Square #2	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
5.5mm 12G	50mm	Countersunk	Square #3	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
5.5mm 12G	65mm	Countersunk	Square #3	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze
5.5mm 12G	75mm	Countersunk	Square #3	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze

MULTI PURPOSE SCREW SQUARE PHILIP COMBO DRIVE

Ribs

Seat screw into material smoothly and firmly

Sharp Threads

Destroy wood chips efficiently, reducing driving resistance.

Thread Cutting

Ensures wood chips removed quickly to prevent wood from cracking

Sharp Point

Easier start-up and less wobbling

A Unique Blend of Phillips Drive & Square Recess Drive

- > multi-drive system for field serviceability
- > providing a great deal of stability, less "cam-out"
- > balanced performance between torque transmission and off-angle capability
- > might be your best bet for woodworking

Diameter Gauge	Length(in)	Head	Drive	Material	Finish	Thread Feature
3.5mm 6G	1/2" - 2"	Countersunk / Oval / Pan	Square/Quadrex	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze	Wood Thread / Machine Thread
4.2mm 8G	1/2" - 3"	Countersunk / Oval / Pan	Square/Quadrex	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze	Wood Thread / Machine Thread
4.8mm 10G	3/4" - 4"	Countersunk / Oval / Pan	Square/Quadrex	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze	Wood Thread / Machine Thread
5.5mm 12G	3/4" - 5"	Countersunk / Oval / Pan	Square/Quadrex	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze	Wood Thread / Machine Thread
6.3mm 14G	1" - 5"	Countersunk / Oval / Pan	Square/Quadrex	Carbon Steel / Stainless Steel	RXB Coating Passivated / Baked Bronze	Wood Thread / Machine Thread
