

High Corrosion Resistance Carbon Steel Screw with EC's RXB Coating up to 2000 SST hours

Superior Anti Peeling off Feature

Made for ACQ /CCA Treated Timber

Material	Tensile Strength N/mm ²	Hardness/HV	Application Material	Material Thickness	Finish	Red Rust in Neutral Salt Spray Test	Corrosion Details	Application Circumstances	Construction Lifetime
Carbon Steel 1022A	1000	Surface: > HV450	plastic + carbon steel / stainless steel wood + thick construction plastic wood + carbon steel / stainless steel	carbon steel plate < 12mm	RXB Coating	2000 hrs	excellent performance in anti-corrosion	neutral indoor ✓	class 1,
		Core: HV280-400	chipboard + carbon steel / stainless steel					exposed outdoor ✓ corrosive outdoor ✓ coastal indoor ✓ coastal outdoor ✓	endurance > 100 years, critical / high-rise construction
